1. The Amendment filed on October 12, 2005 has been entered.
2. Claims 31-38 are allowed.
3. The following is an examiner's statement of reasons for allowance: the claims are allowed, *inter alia*, because:

(a) the closest prior art Date (Japanese Utility Model No. 5-319-350) teaches the rearwardly facing front pedal control surface as seen in the Attachment to the Office action on July 12, 2005. However, Date's rearwardly facing front pedal control surface is obstructed by a divider along the longitudinal axis as best seen in Fig. 13. Therefore, Date does not teach or suggest the negative limitation "free of obstruction" in claim 32. In addition, Date's pedal body 1 forms two open areas instead of an open area completely through the pedal body such that the rearwardly facing front pedal control surface includes a concave shape as claimed in new claim 38; and

(b) an obviousness double patenting rejection over the claims of US Patent Nos. 6,694,846 B2; 6,722,229 B2; and 6,845,688 B2 is unwarranted because claims 32 and 38 of this application require the limitations, such as, "a pair of laterally spaced projections (227a, 127a)" and "a sole receiving recess (127a)," meanwhile, the claims of US Patent Nos. 6,694,846 B2; 6,722,229 B2; and 6,845,688 B2 do not claim these limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
